

MARKETING / COMMUNICATION / TECHNICAL WRITING (m/f/d) full-time/part-time

AMO GmbH is a research company in the field of nanotechnology.

Our mission: we carry out scientific research in the fields of microelectronics, photonics, sensor technology, diagnostics, energy and environmental nanotechnology to provide technological impulses for economic development. We are partners for regional and global innovators and seek sustainable solutions for current global challenges.

Join us in bridging the gap between scientific discoveries and technological solutions!

To strengthen our team we are looking for support for the next possible date in the area of

Marketing / Communication / Technical Writing (m/f/d)

YOUR TASKS :

- Planning, conception and implementation of holistic marketing campaigns according to objectives.
- Research on critical news from our various research areas.
- Creating news and articles for our website.
- Writing articles for our biannual company magazine.
- Content maintenance and updating of our website.
- Generally understandable preparation of information for our social media channels.
- Creation and maintenance of an alumni mailing list.

YOUR PROFILE :

- Completed studies, ideally communication sciences or comparable education.
- You are open-minded towards new fields of expertise and have a certain affinity for technology.
- Very good knowledge of German and English, both written and spoken.
- Structured, independent and responsible work.
- You have good comprehension skills and a high willingness to learn.
- You also penetrate more complex issues and communicate them in understandable language.
- Mastery of common office applications and prior knowledge of WordPress is a plus.
